You can continue to follow live coverage here. Liverpool have been drawn against Rangers, while Manchester City will face Borussia Dortmund and Chelsea will take on AC Milan. Spurs, meanwhile, will play Marseille. You can follow the reaction to the draw with The Athletic's live blog, while our draw companion provides all you need to know about this season's competition, from the format and team pairings to new rules. Teams discovered their group-stage fates on Thursday but supporters will have to wait a little longer to find out their final match calendar, as The Athletic explains. Why are the Champions League fixtures not released until after the draw? UEFA has to organise the fixtures and match calendars for three men's club competitions this month: the Champions League, the Europa League and the Europa Conference League. The draws for the Europa League and Europa Conference League take place on Friday from midday BST and the make-up of the sides in those group-stage draws are still to be confirmed. Champions League qualifying only concluded on Wednesday night and 31 play-offs fixtures in the Europa League and Europa Conference League are scheduled for Thursday evening. From UEFA's point of view, that means plenty of 'moving parts', with administrative and planning tasks to be completed across competitions before final schedules are released. When are we likely to get the fixtures in full? The full match calendar for the 2022-23 Champions League could be released later on Friday, following the conclusion of the Europa Conference League draw. But The Athletic understands that UEFA is more likely to confirm the schedule on Saturday, along with the fixtures for the Europa League and Europa Conference League. Clubs will then be able to start making logistical arrangements for what is set to be a gruelling period. Premier League games will take place on November 5-6 and 12-13 after Champions League matchweek six — meaning fixture congestion and tight turnarounds for players and coaches ahead of the World Cup. What are the Champions League groups? Group A: Ajax, Liverpool, Napoli, Rangers Group B: Porto, Atletico Madrid, Bayer Leverkusen, Club Bruges Group C: Bayern Munich, Barcelona, Inter Milan, Viktoria Plzen Group D: Eintracht Frankfurt, Tottenham Hotspur, Sporting Lisbon, Marseille Group E: AC Milan, Chelsea, Red Bull Salzburg, Dinamo Zagreb Group F: Real Madrid, RB Leipzig, Shakhtar Donetsk, Celtic Group G: Manchester City, Sevilla, Borussia Dortmund, FC Copenhagen Group H: Paris-Saint Germain, Juventus, Benfica, Maccabi Haifa What do we already know about the fixtures? UEFA has already confirmed the match dates by round, with the group stage starting on September 6-7 and the final — at the Ataturk Olympic Stadium in Istanbul, Turkey — scheduled for Saturday May 28, 2023. Last season's group stage ran until December but this term, it will be condensed into nine weeks to accommodate the winter World Cup in Qatar, which kicks off on November 20. The final round of group games will take place on November 1-2, with successful teams discovering their last-16 opponents when that draw is made on November 7. We also know that some clubs in geographical proximity will play their games on different days. UEFA has introduced a pairing system — determined by TV audiences as well as country — to ensure two clubs from the same country split their fixtures over the Tuesday and Wednesday of a matchweek. Champions League pairings: Real Madrid & Barcelona Frankfurt & Leipzig Man City & Liverpool AC Milan & Napoli Bayern & Dortmund Paris & Marseille Porto & Benfica Chelsea & Tottenham Juventus & Inter Atletico Madrid & Sevilla Rangers & Celtic 2022-23 Champions League schedule Group stage Matchday 1: September 6-7 Matchday 2: September 13-14 Matchday 3: October 4-5 Matchday 4: October 11-12 Matchday 5: October 25-26 Matchday 6: November 1-2 Knockout phase Round of 16: February 14-15/21-22 & March 7-8/14-15 Quarter-finals: April 11-12 & 18-19 Semi-finals: May 9-10 & 16-17 Final: June 10 Follow the Champions League draw with The Athletic's live blog. Sep 3, 2022 Version 9.5.1 Get the smoothest app performance.Update your app for bug fixes that make following the Champions League even easier. I think this type of apps should be in every football fan mobile because it will guide you right into the date of any match or what you are looking for in champions league .. peace The app works well and smooth. Lots of functions including live commentary which is offered for free and beautiful and friendly user interface make it easy on the eyes and enjoyable. However, the only annoying thing that I can not understand, is actually releasing enormous updates for this app. Considering the 280MB volume of this app, this much update absolutely makes no sense. It is the third day in a row that I received update notifications for this app and it is yet to be known if there will be more . It would be a lot easier for both the developer and users if the updates could be released at once UPDATE: Still haven't fixed the champions league final results(finals by season)! I don't know if its only for me or it just presents the wrong results for everyone. Please fix it! I will leave it at 4*Everything works fine I suppose except if you go to history and the finals by season there are a lot of innaccurate results shown unless you tap(click) on them then they show the correct result. It's not a big deal but for an official app it shouldn't have this kind of error. Like I said other than that it works fine.
